

SIZE GUIDE

EN 340:2004

Protective clothing - General requirements

HH protective clothing is designed and manufactured in such a way that it does not have any effect on the user's health or hygiene. The design guarantees a correct fit and protection for the body when used correctly.

The design and material offer function and comfort.

The material offers good fade-resistance, stability, strength and durability, to ensure that the garments have a long life, even with heavy use and many washes.

Size grading is based on body measurements in centimetres, see the size guide.

All garments are properly marked on garment labels and on external labels to indicate the information required for the standard.
